CAREER SUMMARY

Making a career transition into web development, building on experience in sociological research and international student recruitment. Experienced professional with excellent communication skills, robust qualitative research skills and data analysis experience. My passion is solving problems through user-friendly and efficient technological solutions.

SKILLS AND STRENGTHS

- **Programming languages & Frameworks** – HTML, CSS, JavaScript, Bootstrap, Git & GitHub, Mocha, Chai, WordPress.
 - **Qualitative Research** – led 2 research projects in Sociology in India as doctoral researcher, which led to 2 journal publications and 4 international conference presentations.
 - **Communication & Customer service** – through intercultural communication and excellent customer service achieved 100% goals in applications and acceptance for international students.
-

TECHNICAL ACCOMPLISHMENTS

- Graduated from Jr Web Developer Program at Generation USA with 100% score on the W3Schools JavaScript exam and selected as student speaker at graduation.
 - Built portfolio website and Caloric Density calculator web app as individual projects with HTML, CSS, JavaScript and Bootstrap.
 - Participated in 3 virtual Hackathons with international teams. Won 3rd price and Popular vote award for Bea Breast Cancer Translator at Girls in Tech Hackathon in October 2020 (team lead).
 - Designed and managed the website of ISAP at Georgia Southern University with WordPress in 2020. Previous experience with web design since 2010 with CMS or static websites with HTML and CSS.
 - Designed and implemented technological solutions for operations, communication, and data-driven recruitment of international students.
-
